Record number of applications for Stelios awards

LOCAL NEWS

THERE has been a huge increase in interest in the Stelios bi-communal 2016 awards, organised by the Stelios Philanthropic Foundation.

The number of applications has doubled from last year reaching 215.

An announcement by the Stelios Philanthropic Foundation said: "This is due to the excellent communication and publicity that the awards contest received through the Facebook platform, engaging participants through the Stelios Philanthropic Foundation page, giving more impetus to Greek Cypriots and Turkish

Cypriots for networking and developing partnerships."

The total amount for this year's awards is greater than ever after Sir Stelios Haji-loannou will be offering for the first time €500.000, rewarding a total of 50 teams that can win €10.000 each, with a total amount of two million euros been awarded since 2009.

All forms of human cooperation between Greek-Cypriots and Turkish-Cypriots are eligible to apply through Facebook, including business, sciences, arts, sport, NGO work and life!

The winners will be announced at the Awards Ceremony in October 2016 in Nicosia.
